

## **Pro-Line Benzin System Intensiv Reiniger Konzentrat (Pro-Line Petrol System Intensive Cleaner Concentrate)**

### **DESCRIPTION**

Petrol System Intensive Cleaner Concentrate is a highly effective combination of additives for cleaning all petrol injection systems such as K, KE, L-Jetronic and similar systems. The product has been developed and formulated for use in a Jet-Clean unit.

### **PROPERTIES**

- quickly and easily removes fuel deposits from the injection system
- removes carbon and other deposits from fuel distributors and injector valves
- effective in all injection systems
- leads to precise injector dosage and atomisation of fuel
- secures the optimum drivability and low fuel consumption
- optimises exhaust gas emissions
- increases operational reliability and economy

### **TECHNICAL DATA**

Basis	:	additives/special carrier fluid
Colour	:	yellow
Density at 15 °C	:	0.79 g/ml
Regulation on flammable liquids (Germany)	:	A II

### **APPLICATION**

Suitable for all petrol injection systems.  
For eliminating difficulties with starting, irregular idling, poor throttle response, performance losses, lean surging and high pollution values in the exhaust caused by contaminated injection systems.

### **INSTRUCTIONS**

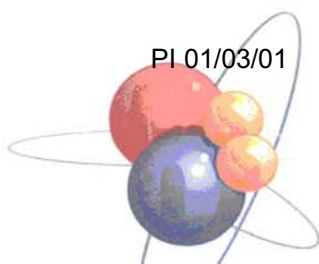

Fill the Jet-Clean unit with a maximum of 4.5 litres of lead-free premium petrol and 500 ml Petrol System Intensive Cleaner concentrate. For smaller total capacities, Petrol System Intensive Cleaner concentrate should be added to the petrol at the rate of 10 % in relation to the total amount.

Further instructions on use are given in detail in the instructions for the Jet-Clean unit.

### **AVAILABLE PACK SIZE**

Pro-Line Petrol System Intensive Cleaner Concentrate 500 ml can Part no. 5152

PI 01/03/01
